### Traditional panelling chosen for EXECUTIVE dining room

The executive dining room of the new General Motors-Holden's Pty. Ltd. Technical Centre in Victoria, which was designed by Stephenson and Turner, features these handsome panelled walls of natural timber. The panels are of English oak book-matched plank veneers and the mouldings are of solid Japanese oak.

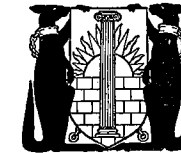

As with all the veneered wall finishes in this building, the natural beauty of the grain and colour is preserved by a clear matt finish.

Cemac can offer a comprehensive selection of veneers for every architectural need. Cemac representatives will gladly quote any project and provide samples.

## Bulletin

### N.S.W. Chapter Council Elections

The June, 1964, Bulletin gave formal notice about Chapter Council Elections for the 1964-1966 Session. The same Bulletin contained nomination forms which could be cut out for completion and sending to the Returning Officers.

Members are reminded that nominations close at 4 p.m. on Friday, 31st July, 1964.

### Sir John Sulman Award 1963

The jury to consider the Sir John Sulman Award 1963 comprises Professor J. M. Freeland (F) and Messrs R. N. Johnson (F), W. I. Burrows (A), A. Williams (A) and Alan Ingham, Sculptor.

### Public Relations Notes

- "Outrage" was exhibited at the 1964 Telegraph Homes at the Showground and again attracted considerable public attention. The exhibition is now on display at Bankstown Council Chambers.

- Over 400 Secondary Schools throughout N.S.W. have been circulated with publicity posters, application forms and general information concerning the 4-day School "Architecture as a Career" to be held from August 25-28. A stimulating and varied programme is being planned and will include talks, slides, films, exhibitions, tours of buildings, visits to the Schools of Architecture at the University of Sydney and the University of New South Wales, visits to Architects' offices and building sites.

- An increasing number of Members are assisting with public relations activities. Some Members recently have acted as Advisers on Architecture at Careers Nights held in various High Schools. Where possible, an architectural exhibition has been arranged in the School with posters and other exhibition material provided by the Chapter Office.

- Up-to-date information on modern architecture in Sydney has been prepared for a tourist guide book.

- "The Work of an Architect" has reached the final draft stage. Publication of this booklet is expected shortly.

- The public relations leaflet, "Why you should use an Architect—Your House", has been revised. Stocks will be available from the Chapter Office within a couple of weeks.

Mrs Anne Josephine Sinclair ..... RIBA, 1960  
Lewis Murray Donaldson Stenson .....  
..... ARAIA, 1964  
..... R. S. Greig, Registrar.

**CORRECTION:**

It was announced in last month's Bulletin that David John Hollander was registered with the qualification B.Arch University of N.S.W. Mr Hollander's qualification was incorrectly stated and should have been B.Arch University of Sydney.

R. S. Greig, Registrar.

**Master Builders and Exchange Golf Club**  
Function for August: Wednesday, August 19th, Avondale — Wunderlich's Trophy.

**Amendments to Building Regulations**  
Government Gazettes Nos. 48 to 67, both in-

clusive (1964), have been reviewed by the Acts and Regulations Committee, and the following information is brought to the notice of members:—

The following amendments listed in Government Gazette No. 50.

Government Gazette No. 50 — Friday, 24th April, 1964.

Page 1293: Local Government Act 1919: By-law No. 52 and Ordinance No. 71 have been amended to take effect from 1st August, 1964.

The By-law is amended:—

- (1) in subclause (1) of clause 3 by omitting the definition of "alcove";  
(2) in clause 7 by omitting subclause (e) and by inserting in lieu thereof the following sub-clause:—

- (e) in flats and dwellings—  
(i) The areas of the floors of all the habitable rooms other than a kitchen in a building shall, taken together, average not less than 100 square feet per habitable room.  
(ii) A habitable room, other than a kitchen, shall not in any case have a floor area of less than 80 square feet or a cubic space of less than 720 cubic feet measured below 9 feet in height or 640 cubic feet measured below 8 feet in height.  
(iii) At least one habitable room shall have a minimum floor area of 144 square feet and a minimum cubic space of 1,296 cubic feet measured below 9 feet in height or 1,152 cubic feet measured below 8 feet in height. Except in a bed-living room flat, there shall be at least one other habitable room with a minimum floor area of 100 square feet and a minimum cubic space of 900 cubic feet measured below 9 feet in height or 800 cubic feet measured below 8 feet in height.  
(iv) In calculating the floor area or cubic space of a room for the purposes of paragraphs (i), (ii), or (iii) of this sub-clause, the floor area and cubic space of an alcove or other space within such room for the preparation of food shall be excluded from such calculations.  
(v) The minimum floor area of a fully enclosed kitchen shall be—  
In a combined bed-living room flat—48 square feet.  
In a one-bedroom flat or dwelling house—60 square feet.  
In a two-bedroom flat or dwelling house—72 square feet.  
In all other cases—80 square feet.  
(vi) Where, in lieu of a fully enclosed kitchen, an alcove or other space within a room is provided for the preparation of food, the required minimum area of such room shall be increased by the following:—  
In a one-bedroom flat or dwelling-house—

50 square feet.

In a two-bedroom flat or dwelling house—

62 square feet.

In all other cases—70 square feet.

(3) By omitting clause 13 and by inserting in lieu thereof the following clause:—

Cooking Alcoves

- (a) Every partially enclosed space in the nature of a cooking alcove shall have one or more windows opening directly to the external air and shall be provided with an area of uninterrupted ventilation to the external air of not less than 24 square inches at or near the level of the ceiling, or by means of a vent duct taken to the outer air and affording an equivalent area of ventilation.  
(b) A partition or other means of enclosure screening a cooking alcove shall have an opening of not less than 6 feet 8 inches in height and not less than 4 feet in width or half the width of the alcove, whichever is the greater. Such opening shall not be enclosed with doors.

The Ordinance is amended—

(1) By omitting clause 30 and by inserting in lieu thereof the following clause:—

30.

- (a) The areas of the floors of all the habitable rooms other than a kitchen in a building shall, taken together, average not less than 100 square feet per habitable room.  
(b) A habitable room, other than a kitchen, shall not in any case have a floor area of less than 80 square feet or a cubic space of less than 720 cubic feet measured below 9 feet in height or 640 cubic feet measured below 8 feet in height.  
(c) In each dwelling house and flat at least one habitable room shall have a minimum floor area of 144 square feet and a minimum cubic space of 1,296 cubic feet measured below 9 feet in height or 1,152 cubic feet measured below 8 feet in height. Except in a bed-living room flat, there shall be at least one other habitable room with a minimum floor area of 100 square feet and a minimum cubic space of 900 cubic feet measured below 9 feet in height or 800 cubic feet measured 8 feet in height.  
(d) In calculating the floor area or cubic space of a room for the purposes of sub-clauses (a), (b), or (c) of this clause, the floor area and cubic space of an alcove or other space within such room for the preparation of food shall be excluded from such calculations.  
(e) The minimum floor area of a fully enclosed kitchen shall be—  
In a combined bed-living room flat—48

square feet.

In a one-bedroom flat or dwelling house—

60 square feet.

In a two-bedroom flat or dwelling house—

72 square feet.

In all other cases—80 square feet.

- (f) Where, in lieu of a fully enclosed kitchen, an alcove or other space within a room is provided for the preparation of food, the required minimum area of such room shall be increased by the following:—  
In a one-bedroom flat or dwelling house—50 square feet.  
In a two-bedroom flat or dwelling house—62 square feet.  
In all other cases—70 square feet.

(2) in subclause (b) of clause 31—

- (a) by omitting the words "in which the food is intended or likely to be stored or prepared", wherever occurring, and by inserting in lieu thereof the words "or other spaces where food is intended or likely to be prepared";  
(b) by omitting the words "recesses or alcoves" and by inserting in lieu thereof the words "recesses, alcoves or other spaces".  
(3) in clause 33—  
(a) in subclause (c) by omitting the words "or room or alcove in which food is intended or likely to be stored or prepared" and by inserting in lieu thereof the words "including a kitchen, every partially enclosed space in the nature of a cooking alcove";  
(b) in subclause (e) by omitting the words "Stored or";  
(c) in subclause (f) by omitting the words "alcove where food is intended or likely to be stored or prepared" and by inserting in lieu thereof the words "cooking alcove";  
(d) in paragraph (i) of subclause (i) by omitting the words "Every alcove in which food is intended or likely to be prepared or stored" and by inserting in lieu thereof the words "every partially enclosed space in the nature of a cooking alcove".  
(4) in clause 56—  
(a) by omitting subclause (a) and inserting in lieu thereof the following subclause:—  
(a) Subject to this Ordinance, comprised within each flat there shall be a bathroom or shower room, a water closet (if a suitable sewerage system is available) and a fully enclosed kitchen or an alcove or other space with a room where food may be prepared. A kitchen sink shall be fixed, with running water, and connected with a suitable sewerage system if available. Cooking alcoves or other spaces for the preparation of food shall not be included within a bedroom or bed-living room.  
(b) by omitting subclause (b).
