CONFIDENTIAL & PRIVATE

I know that you are willing to support me for the election this afternoon. I feel we should if necessary "force" discussion before a vote is taken. I am confident that if nominated by the A.P.I., I would have a very good chance because a few weeks ago the Minister personally invited me to be the Deputy-Chairman of the Authority - a position which I declined. Therefore I believe an academic and one even with the name of Shaw would be acceptable. Only Jim King as my proposer now knows of this as I have regarded the Minister's invitation as strictly confidential until such times as the appointments are made. I also do not wish to use this for the election, but I feel I ~~must~~ ^{might have to} if only to correct the ~~false~~ view that an academic would be unlikely to succeed.

P.T.O.

As you have kindly indicated to support me I would like you to know, in confidence, of this development.

Yours
John
