Our ref:

We wish to inform you that Clarke-Gazzard Planners Pty Ltd has opened an office at Parramatta, in the Royal Insurance Building at the corner of Smith and George Streets.

Mr W.A.C. Dale, who has had 42 years' experience in administration, planning and engineering in local government and in the armed forces, is the Director of this office. His Associate is Mr Frank Duffy, MAPI, a qualified town planner with 16 years' experience.

The Clarke-Gazzard organisation provides a comprehensive range of consulting services in urban planning, development research and feasibility studies, urban and regional physical planning, urban design, development management and planning administration. Clients throughout Australia and overseas include retailers, industrial organisations, project builders, property investors and developers, as well as Local, State and National Government authorities.

From the Parramatta office, we can now give immediately available local service to clients in the west, north-west and south-west sectors of the Sydney Metropolitan Region. We see Parramatta rapidly assuming the status and significance of a major City Centre in its own right. We believe that it will increasingly become less dependent on Sydney for professional and other services.

Page 2.

The Parramatta office will concern itself principally with urban planning and development matters, but it will be able to call on the wider professional services of our associated companies in the Sydney office of the Urban Systems Corporation Pty Limited, the parent company of the Clarke-Gazzard group.

The personnel of the Urban Systems Corporation includes more than sixty professionally trained planners, urban designers, traffic engineers, geographers, architects, sociologists, surveyors and cartographers.

Please note that the telephone number of our Parramatta office is 635 8404, as this is not yet listed in the Directory.

Yours faithfully,

CLARKE-GAZZARD PLANNERS PTY LTD
