Subject: Items for Discussion with Alderman Griffin

Rather than having a formal written agenda, it is suggested that the following topics be our guidelines for the discussion next Monday.

1. The relationship of Financial Planning and the Strategic Plan.
2. Priorities in Action Planning for the next Council Budget.
3. Financial Issues in Establishing Parking Stations.
4. Where Council Budget is currently applied:-
 - (a) Areas of possible change in emphasis;
 - (b) Opportunities for cost saving.
5. The Political Appeal of "Pay-as-you-go" Approach to Planning.
 - i.e., instituting cost reduction schemes which finance Action Plans which help build a better city. This can be shown as a very efficient, very practical approach to City Management.
