Clarke Gazzard Planners Pty. Ltd. in Queensland

Clarke Gazzard Planners Pty. Ltd. is the Town Planning Unit of the Australia-wide multi-disciplinary Urban Systems Corporation Pty. Ltd.

In Queensland, offices of Clarke Gazzard Planners are established in Brisbane and in the City of the Gold Coast.

Present level of staff is fourteen. Of these, there are three professionally-qualified Town and Regional Planners.

The offices are directed by the two Directors of USC resident in Queensland, Andris Stenders, a qualified Town and Regional Planner with considerable overseas Australian and Queensland experience, and by Ronald Burling, Architect, specialising in large-scale urban and environmental design projects.

In addition to the permanent Queensland staff, specialist services are available from within the other regional components of the Corporation. This includes the availability of more than eighteen specialist professional planners under the direction of George Clarke, USC Director of Planning.

The majority of senior planners have received post-graduate training from overseas institutions, supplemented by extensive experience with both statutory authorities and planning consultancies.

Clarke Gazzard Planners Pty. Ltd. has always adopted a practical, realistic and innovative approach to the solution of planning problems. The objective of the company is to advance the principles of sound town planning practice by serving and assisting governments, institutions, corporations, developers, and individuals in applying its professional skills to produce environmental excellence.

The company strives to uphold these principles on a nation-wide basis, with particular emphasis on conservation, economic and urban growth planning.

Each regional office is required to contribute to their ideal and at the same time must satisfy local social, physical and economic requirements.
