

U.S.C. Seminar at Parramatta

"EFFECTIVE STRATEGY AND ACTION IN URBAN PLANNING"

New Techniques for Identifying and Resolving Municipal Planning Problems

10.10.1980

The Seminar is being conducted by the Urban Systems Corporation, an Australian organisation, providing problem - solving services in:

- * Industrial, Commercial and Residential Market and Economic Research
- * Urban Sociology
- * Transportation Systems Analysis and Planning
- * Development Control and Management
- * City and Regional Planning

It will present, for discussion, case studies of techniques and procedures in municipal problem - solving. These techniques and procedures, many of them new to Australia, have evolved from the ten years' practical experience of USC (formerly Clarke, Gazzard and Partners) in a wide range of problem - solving work for Commonwealth, State and Local Government authorities throughout Australia.

Head Office of Urban Systems Corporation is at:
2nd Floor, MLC Building,
105 Miller Street, North Sydney. 2060.
Telephone: 929-0855

Regional Offices are at Melbourne, Perth and Southport.
Parramatta Office is located at Royal Insurance Building,
33 Smith Street, Parramatta. 2150.
Telephone: 635-8484
