**DRAFT LETTER**

**COUNCIL OF THE CITY OF SYDNEY LETTERHEAD**

**To: see attached list.**

**Dear Sir:**

**You will be aware that Council's Planning Consultants are currently preparing a Strategic Plan for the City. One aspect of this on which our Consultants are currently working is the provision of parking for commuters, short-term visitors and delivery vehicles.**

**We are now seeking further advice on the particularly difficult problem of the loading and unloading of delivery vehicles. As you are no doubt aware, considerable congestion is caused by the kerbside loading and unloading of delivery vehicles and by the backing and filling of delivery vehicles attempting to reverse into or out of off-street loading bays.**

**We are considering policies designed to alleviate the problem in the long term. These involve requirements for the provision of off-street loading facilities in new building developments. This, of course, would relate only to future buildings and not to existing buildings. Consequently, it becomes necessary to consider other means of easing congestion due to delivery vehicles during such periods as:**

- (i) morning and evening peak hours, or**
- (ii) ordinary business hours, or**
- (iii) lunch time.**

**Some people urge that certain classes of, or even all, inner city deliveries on certain, or all, streets should be banned within certain hours, e.g. between 8 am and 6 pm, or in some lesser period(s). We would appreciate a statement of your views on the feasibility of this type of restriction.**

**If you have any particular queries on this matter, please telephone our Consultants, the Urban Systems Corporation, on 929.9856, and ask for Mr Peter Casey, Transportation Systems Director.**

**Yours faithfully**

**Ald. Andrew Briger, Vice Chairman  
City Development Committee**
