Dear Sir,

I congratulate you and your colleagues on formulating the City of Sydney Strategic Plan. It shows a degree of refreshing imagination lacking previously. However this plan must be implemented without fear of pressure from interested parties, particularly developer oriented parliamentarians. With this in mind I urge you to reject or greatly modify the Walloomooloo development plan. This abomination disguised as 'progress and development', if not checked, will signal the beginning of the end of the city of Sydney.

Yours Faithfully

P.J. Emders

Acknowledge say refered to Consultants.
