A.H.'s Kurrajong 71-636 or Grose Vale 721-172

### VIEW of work on the Martin Place-Kings Cross section of the Eastern Suburbs Railway.

The viaduct in the centre of the picture will carry the railway over five major streets.

These are Sir John Young Crescent, Forbes, Cathedral, Bourke and Palmer Streets.

The viaduct will run from a tunnel ending near the Domain parking station, to another tunnel which will take the line to Kings Cross station.

It will cross the Woollomooloo basin as a continuous arch girder supported by nine concrete piers and two abutments.

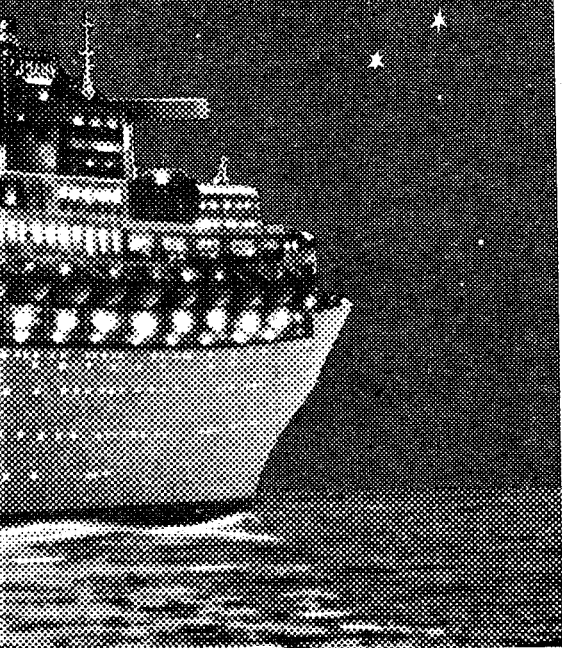

The \$1.5 million project is expected to be completed late next year.

### BRIDGE TO GO

HOBART, Wed. — "Old Faithful" will be sent to a watery grave in a matter of weeks.

The old Hobart floating bridge — or "Old Faithful" as it has become known — is due to go today or tomorrow.

# OPERATION EARTH DAY JUDGES PLEASED

Operation Earth Day judges yesterday said they were pleased with the response to the conservation contest.

Entries continue to roll in.

One of the judges, the Director of Taronga Park Zoo, Mr. Ronald Strahan, said: "Conservation of nature is the rational, foresighted preservation of the living resources of our planet — a policy of living within our income rather than squandering our capital assets.

"Animal life is one such asset.

"The loss of any animal species can impoverish the complex web of life, of which we humans are an integral part.

"If Operation Earth Day will help in such preservation, it is well worthwhile," he said.

Operation Earth Day is organised by the Daily Telegraph in association with the Bank of N.S.W. It is Australia's largest conservation contest.

Any group which undertakes a worthwhile conservation project within the next five months is eligible for valuable awards.

## Winners

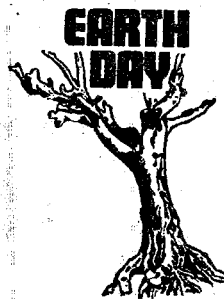

Operation Earth Day will culminate on September 24 (Earth Day) with the announcement of contest winners.

Conservation and other interested groups will hold wildlife and other displays to emphasise the value of — and threats to — our natural heritage.

First, second and third prizes will be awarded in three categories, based on the average age of members of participating groups.

The categories are:

1. Groups whose members' age is 12 years or under.

MR. R. STRAHAN

2. Groups whose members' age is between 12 and 25.

3. Groups whose members' average age is 25 or more.

First prize in each section is \$500, second \$300 and third \$200. The prize-money may be spent on furthering a conservation project or given to an approved charity of the winners' choice.

Consolation prizes include specially commissioned 12in. LP records of jazz works with wildlife themes, illustrated hardcover books by leading authorities on Australian wildlife, and one-year subscriptions to the Australian Museum's publication *Australian Natural History*.

## Coupon

To obtain a project kit, which includes the official contest registration form, just fill in and post the coupon on this page to Operation Earth Day, Box 5252, G.P.O., Sydney, 2001.

Enclose a postal note for 25c to cover postage.

The contest itself costs nothing to enter.

Your group could share in \$3000 in cash awards and scores of valuable consolation prizes supplied by the Australian Museum.

So if you care — and you have not entered the contest — mail the coupon NOW!

Daily Telegraph — Bank of New South Wales
