10.1.1978.

Dear George,

Through-out this year gone I have had the warmest caring thoughts about you, again and again. Although I heard nothing I was very concerned.

It came to a climax when, in Teheran in December, with a ticket to go at last to Isfahan, I wrote a poem for you concerning the bouncing domes of Isfahan..... then I could not make it after all and found I did not have your address-

And then I had an interview, an hour long with the Minister of Art and Culture on Sculpture and he said ((Pahlbod his name) brother-in-law of the Queen,) " I have met only one other Australia architect. And do you know what he said?, " why do you want to try and copy our poor western planning, you have the ideal arrangement in Isfahan.... " and I knew and said " George Clark " and his face shone and he said, yes, yes. That was in 1933 and your photo sent to me of the Domes have delighted me, on my office wall, ever since.

Well George may be the worst is over for you, as I hope it is for me. But I want you to know now and for good that I will not forget your loyalty to me when in trouble. God knows what I can do, unless I can become Lord Mayor in May as planned, etc. but if you feel there is anything I can do for you out of sheer gratitude for your many helping hands in the past, don't hesitate to let me know.

I rang Ralph Standen for your address when I found you missing from Sydney directories. He gave me a very brief story.

I'd be very pleased to hear from you and to meet up when I am in Sydney in the next month or so laying RITTERINGS for the Housing Commission there.

I am truly concerned that your genius should stay ready to be employed again and again for the good of Australia and the world. So I would be glad to hear you are well in spite of the foibles of this world.

May 1978 be a good one.

Love
