Dear George

Sincere apologies for this delayed response – I put in an email request to our Faculty librarian immediately after your telephone call, not realizing she was still away on holidays.

But you'll be pleased to see in the following pages, the complete listing of our holdings of the wonderful collection of planning reports and studies you've made available to the Faculty. There are 68 listed in this collection and they are all in the Resource Centre Library here in the Red Centre. These materials can only be used in the Library – they are not available for loan, so they won't go missing!

I haven't had any luck finding the Leonie Sandercock book you inquired about though – will keep on that case for you.

I'm sorry I missed your phone call this morning, but I'm involved in teaching a summer elective course that is starting today. Hope you are comfortable and feeling as well as possible.

Best wishes

*Linda Corkery.*

K: Please get a clear-printed copy of this – not merely a smudgy fax.

Also ask for an electronic

file.

Further get similar searches of catalogues at UoF, Fisher Libs, SLO NSW, National libraries and others.
