

① Dear Dad,

I hope you are well and everything is going well for you. Well I'm back at school now. It's not too bad either, so far. I went to see "The Club", which is a new David Williamson play and it was really good. I also went to St Albans for a weekend with a group of people and that was really great. I have got some sort of bladder infection at the moment which is very painful so I will write a longer letter when I'm feeling better.

Lots of love

& Happy Birthday

P.S. Thankyou very much for the silk kimono & handbag. Rebecca x x x

(Rebecca really is sick so you must excuse her dull letter)
