Dear George:

Received your letter on arrival from Penang last week: was examining students of the very good School of Housing Building & Planning at the University of Malaysia. Have read your impressive application for the NSW Chair & feel you will certainly be on any short-list; altho. I know they have had some very good candidates. Hope you don't go to America and be lost to Sydney (and Australia). ^{America is better to visit than to live in.} Yes of course; always use my name when you think it would be useful, but I don't like appearing as referee for several for the same job: it doesn't look well for them or for me.

Glad to know the Indonesian work is going so well & look forward to hearing more about it from you - & more of you too.

Please phone 20981 - 559. (Housing Commission) after 10 AM! when you are back in Sydney.

In haste.

With love to Eva

Yours Denis.
