George Clarke  
P.O. Box. 15  
Denpasar  
B A L I.

Dear George,

Thank you very much for your letter.  
Yes indeed it has been 15 years past since we met last in Sydney. That was why I called you up when I heard you were in Jakarta ... but you were out.

Anyway, now that I have your address it makes us easier to contact one another.

Yes, it is true that I will be heading the NUDS. Starting when, I don't know. As of now the paper work is still shuffling back and forth between Cipta Karya, UNDP Jakarta and Nairobi. Thus at this state I serve as an adviser to Ruslan and Radinal. Particularly, Ruslan who still have a lot to say because I have to rely on his administrative and financial back up. As soon as that is satisfied then I am fully in charge.

Therefore, in the design of the agreement with NUDS the G.O.I (represented by me) will have a lot to say and share an equal responsibility in recruiting international experts. This is the last proposal we gave to the UNDP and when that is accepted, among others, we will be able to make more definite plans.

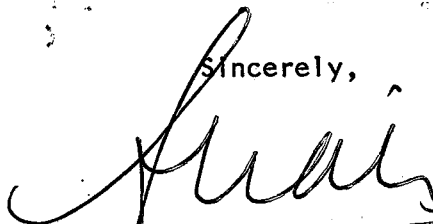

The Harvard group (HIID) is also keenly interested in the project. We don't know how to accomodate this interest which at times has to go through inter Ministerial channels.

Well, George, there is indeed so much to talk about on the NUDS, it is better that we talk when we meet.

Now, on some other matter it is surprising for me to know that you are around here. You must know Bali more than I do, I used to go to Bali in the 1960's but lately I go there very rarely. The last time was September last year. I do enjoy Bali so much too (who doesn't).

I hope to be able to visit you, more so when this NUDS is going. Until then,

Sincerely,

  
(Sugiyanto Soegi Joko)
