10th September 1979

Dear Helen;

I trust you are fit and happy - and coping well with your responsibilities for a sick world economy. I'm fine, but bored. I never proceeded further with the Berkeley application because I heard they would appoint a Black and a Marxist, which they did.

Meanwhile, I've just made another application, this one 3 months late, to one of your old almae mater, the University of Queensland. I attach a copy of the application, + hope your secretary can file it for retrieval if & when they get round to consulting you. Perhaps you could write briefly to them & assure them of your readiness to be consulted & to respond promptly. Anyway, I do hope you feel like convincing them.

Regards, affection & best wishes
George
