Re: Martin Place Closure  
Between Pitt and Castlereagh Streets

Dear Sir,

Further to your letter of April 30th, this Company will withdraw its objection provided that Council would agree to the following points:

- (1) Allow the Company suitable areas for the installation and maintenance of gas pipes and equipment.
- (2) Where existing gas pipes exist these must be replaced by new materials before the areas are resurfaced.
  - a) Council at its cost to excavate and backfill and restore all trenches necessary for these pipes to the Company's specifications.
  - b) Should it be necessary, owing to objections or demands by other parties than this Company, the Council to reimburse it for the cost to carry out this work, after the normal working hours of Monday to Friday 7.30 a.m. to 4.10 p.m.
- (3) The Company will provide all new materials and skilled labour to construct and maintain these pipelines.

Dear Sir,

PROPOSED CLOSURE OF PART OF MARTIN PLACE,  
SYDNEY - YOUR REFERENCE: 682/72 EW/MU

Reference is made to your letter of 30th April, 1973, concerning your Council's proposals to close and convert to open public space the remainder of Martin Place, Sydney.

The County Council is of the opinion that the making of provision in your Council's action plan for access to underground cables and other installations would not give The Sydney County Council satisfactory security of tenure and, accordingly, I regret that the County Council cannot agree to withdraw its objection to the proposed road closure.

As outlined in previous correspondence, the County Council wishes to obtain registered rights for its installations and it would appear that the most suitable manner by which rights can be obtained is by way of resumption.

The County Council is mindful of the efforts made by The Council of the City of Sydney in developing the existing plaza area. As you are aware, in the event of the County Council obtaining formal rights over both that section of Martin Place that has been closed and the remaining section that it is proposed to close, the fullest co-operation would be maintained when access to County Council installations becomes necessary.

Yours faithfully,
