

**URBAN SYSTEMS CORPORATION**

URBAN SYSTEMS CORPORATION is a multi-disciplinary consultant group offering comprehensive expertise in urban and environmental planning, architecture, market feasibility and development implementation.

#### Planning Experience:

We have carried out a variety of large commissions concerned with city, metropolitan and regional planning and development in relation to the capital cities of Brisbane, Sydney, Melbourne, Adelaide, Perth and Hobart. In addition, we have offices in all but Hobart and the work programmes of these offices with both large and small projects of necessity ensure that we are thoroughly familiar with both the situations, proposals and developments in the respective regions and with the economic, political, social and physical factors which influence city and regional growth and development.

Work completed and in progress in the capital city offices includes:-

#### Sydney
