

GC/ITD

September 27, 1960

Mr. H.E. Scottford  
Honorary Secretary  
Provisional Committee  
Sydney Development Association.

Dear Mr. Scottford:

Following your request for some notes on possible work the Development Association might undertake, I am now sending you a copy of a project specification dealing generally with the inner area urban renewal problem. This was written 12 months ago, but is still, I believe, useful to indicate the scope of study needed in this field. This particular project involves an overall view of the whole inner area problem, and aims at establishing a framework of policies and outline plans into which specific redevelopment proposals could fit. Further work is required to bring it into line with current conditions. I would be glad to know your reactions to it at this stage.

As I mentioned to you on the telephone today, the name of Mr. J.H.D. Marks of Development Finance Corporation is one you might consider as a Foundation Member or a Foundation Councillor of the Association.

With kindest regards,

Yours sincerely

George Clarke
