

George and Eva,
 How are you getting along. I've been back at MIT teaching with K for
 18 months now, and we are getting stronger, as new men replace the old.
 We have also spent two summers in Venezuela. on a new steel city
 for which the Joint Center is consultant - this project is not being
 carried out so well. And we have two babies - Rustin 2½ steel
 pretends to be one, Moore (born in Caracas) 6 months. Marriage has
 matured us, we like to think, at least we must gain something from
 the rigors of controlling brats. Drop in ^{in line}.
