Dear Mr. Clarke,

I have pleasure in attaching a photostat copy of a letter received from the Town Clerk regarding Sydney City Council's consideration of the representations made by the Sydney Cove Improvements Committee.

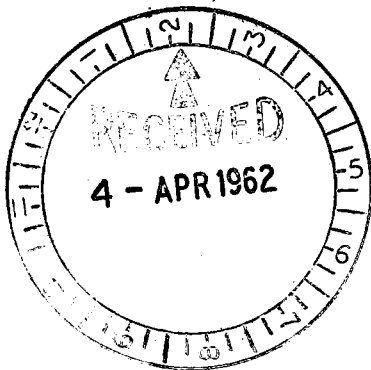

It is interesting to note that planning officers of the Council have been asked to consider the work of our Committee in conjunction with the plan for the area which they will eventually produce.

It would appear also that the Committee's action in bringing up the need to consider the future of Sydney Cove has resulted in the necessary negotiations with the Department of Railways being initiated.

Sincerely,

G. J. Dusseldorp
