Attention: Mr. John King.

Dear John:

Enclosed is a print of the Redevelopment scheme for Circular Quay with the various parking areas marked in red and showing the number of car spaces to be provided. The total number of car spaces to be provided would be in the vicinity of 2855. I trust this is sufficient for your purpose.

A meeting with the University people was held in our office this morning at which agreement was reached on all outstanding points. Most of the drawings will be in the model makers hands by Thursday morning and all the remainder by Friday afternoon.

If I can assist you in any other way please call on me.

Yours sincerely

Donald Gizzard.
