Dear Don,

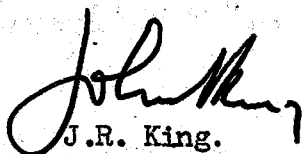

CIRCULAR QUAY BEAUTIFICATION

On Wednesday evening I visited the studios of Finecraft Scale Models and was concerned to learn that the model makers are now urgently in need of details of the various buildings included in the scheme and shown to the interim committee recently.

The model makers are making every effort to meet our target date and your active co-operation by assisting them in providing the plans they now need, is requested.

It is not necessary to wait until all the elevations of buildings are complete and it is suggested that time will be saved if you would be good enough to send details of the various buildings as each one of them is completed.

Yours sincerely,

J.R. King.

JRK/LH
