Mr. G. Clarke,
Clarke, Gazzard & Yeomans,
117 Harrington Street,
S Y D N E Y N.S.W.

Dear Mr. Clarke,

Trans-Australia Airlines is seeking the support of this Committee for a proposal to build a heliport in Sydney, so that it may operate a regular helicopter service between the city and the airport.

T.A.A. wishes to erect this heliport in Woolloomooloo near the Domain Parking Station.

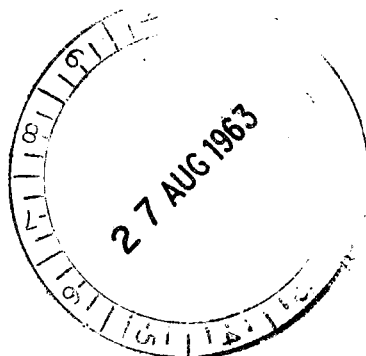

As plans have to be submitted to the New South Wales State Government for approval, T.A.A. is seeking some support from organisations connected with development. I am assured that the project already has the support of the Department of Civil Aviation, the City Council and the Chamber of Commerce.

Your comments would be greatly appreciated on this proposal so that I may, with your approval, pass them on to T.A.A.

This is apparently the only area which meets Department of Civil Aviation approval because the route would lessen the hazards of helicopter flying over more populated areas.

Yours truly,

DO:mrc

D. Osborne
